## Health Office

Phone: 908-879-5212 ext. 3495  
E-mail: smoor@wmrbsd.org / ckaminski@wmrbsd.org

Fax: 908-879-5460

Dear Parent/Guardian,

The protocols for the administration of **Epinephrine** for life threatening allergies. According to P.L. 2007.57 (S79 2R), delegates for epinephrine for school need written permission from the parent. Accompanying permission from the parent must be a current copy of the student's Emergency Care Plan for **Epinephrine** Auto Injector.

A separate **Epinephrine** Auto Injector must be provided by the guardian for the purpose of the delegate's access in the event of an emergency. If not provided a delegate cannot be assigned.

Take note that this form must be returned to the school nurse to keep a record of your wishes to be in compliance with New Jersey code.

**The nurse must be informed of field trips or after school activities within 72 hours to make arrangements for trained delegates to cover these activities.**

(The parent will be notified in the event that a nurse or delegate cannot be assigned for the off campus activity during school hours. Weekend trips require notice as soon as possible to accommodate your request).

Sincerely,  
Cathe Kaminski, RN  
Susan Moor, RN

### **Epinephrine Auto Injector Permission**

Student Name: \_\_\_\_\_ Grade: \_\_\_\_\_

(Check all that apply)

- I give permission
- I do not give permission
- My son/daughter has permission to self manage their allergy and administer their dose of Benedryl and or epinephrine. I do not need a delegate or nurse assigned in the event one is not available.

My child's Emergency Care Plan is enclosed to reflect my request for his/her medical care. I understand that by giving permission for a delegate to be assigned that by child's medical information will be shared with pertinent staff members to ensure proper care of my son/daughter.

The volunteer delegate is trained by the school nurse and may administer **Epinephrine** in the event of an emergency for anaphylaxis in which the school nurse or parent is not available for the \_\_\_\_\_ school year.

I understand that the district and its agents are acting in good faith and the delegate shall be immune from any civil or criminal liability arising from actions pursuant to this act.

## MANDATORY IMPACT CONCUSSION BASELINE TESTING FOR ALL ATHLETES

As you know, **all** students interested in participating in the sports and /or cheerleading programs must complete a physical prior to activity. At WMCHS, we also require each athlete/cheerleader to obtain a baseline score on the ImPact test for concussion management. This test is a computerized one that scores reaction time, memory, recall, and processing speeds. **A baseline test will be obtained ONCE EVERY 2 YEARS (usually FRESHMAN and JUNIOR years.) IT DOES NOT NEED TO BE RE-TAKEN EVERY SEASON.** The test will only need to be re-administered if the student athlete suffers a head injury during the season. The results of this test will be one piece of a puzzle that will be used to clear an athlete for activity. This does not replace the care of a physician, but does assist in the return to play decision. No one wants to see an athlete return to activity before he/she is ready.

**THIS TEST MUST BE COMPLETED PRIOR TO YOUR PHYSICAL. PRINT/SAVE THE CONFIRMATION FORM/RECEIPT AFTER COMPLETING THE TEST. THE HARD COPY OF THE RECEIPT/CONFIRMATION FORM MUST BE SUBMITTED WITH YOUR PHYSICAL FORMS TO THE NURSES.**

You can take the test at home. Once you have completed the test, the results will be sent to a special website that the athletic trainer will be able to reference.

**The most important part of the test is to follow the directions and pay attention.** If you do not pay attention or try to lower your score on purpose your test scores will come up invalid and you will have to take the test again. There is no pass or fail, but results are compared to national norms for specific age groups, so try your best. This is not an easy test, but realize it is a baseline only. Do not worry if you see the word "incorrect" come up when answering questions. **Just do your best!**

To take the test, you must have a computer with an external mouse. If you are using a laptop make sure it is plugged in so the battery does not die while taking the test. The entire test should take approximately 30 minutes. The room must be quiet. **No radios, talking, texting, phone calls, etc.** The test is timed, if something diverts your attention you will probably get an invalid score.

To take the baseline test go to [www.impacttestonline.com/schools](http://www.impacttestonline.com/schools) **The ID code for WMC is D1727C86E2.** This site is for a baseline only. **Do not** go to this site again after taking the test. All post injury tests will be done with the athletic trainer on another site.

### **Some helpful hints:**

1. Make sure the pop off blocker is off on your computer.
2. For the number of years of education, answer 8 for freshmen and 10 for juniors.
3. If you have not suffered from a recent concussion, your response for each symptom question should be zero or not experiencing at this time.

**If you have any questions, contact Suzanne Barba, Athletic Trainer at [sbarba@wmrhd.org](mailto:sbarba@wmrhd.org)**

## ASTHMA EMERGENCY PLAN

Emergency action is necessary when the child has symptoms such as \_\_\_\_\_

or has a peak flow reading at or below \_\_\_\_\_

- Steps to take during an asthma episode:
  1. Check peak flow reading (if child uses a peak flow meter).
  2. Give medications as listed below.
  3. Check for decreased symptoms and/or increased peak flow reading.
  4. Allow child to stay at child care setting if: \_\_\_\_\_
- 5. Contact parent/guardian
- 6. Seek emergency medical care if the child has any one of the following:
 

- No improvement minutes after initial treatment with medication.
  - Peak flow at or below \_\_\_\_\_.
  - Hard time breathing with:
    - > Chest and neck pulled in with breathing.
    - > Child hunched over.
    - > Child struggling to breathe.
  - Trouble walking or talking.
  - Stops playing and cannot start activity again.
  - Lips or fingernails are gray or blue.

## ALLERGY EMERGENCY PLAN

Child is allergic to: \_\_\_\_\_

- Steps to take during an allergy episode:
  1. If the following symptoms occur, give the medications listed below.
  2. Contact Emergency help and request epinephrine.
  3. Contact the child's parent/guardian.
- Symptoms of an allergic reaction include:
 

(Physician, please circle those that apply)

- Mouth/Throat: itching & swelling of lips, tongue, mouth, throat; throat tightness; hoarseness; cough
  - Skin: hives; itchy rash; swelling
  - Gut: nausea; abdominal cramps; vomiting; diarrhea
  - Lung\*: shortness of breath; coughing; wheezing
  - Heart: pulse is hard to detect; "passing out"
  - \*If child has asthma, asthma symptoms may also need to be treated.

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

Do you have any allergies?  Yes  No If yes, please identify specific allergy below.

Medicines  Pollens  Food  Stinging Insects

Explain "Yes" answers below. Circle questions you don't know the answers to.

GENERAL QUESTIONS	Yes	No	MEDICAL QUESTIONS	Yes	No
1. Has a doctor ever denied or restricted your participation in sports for any reason?			26. Do you cough, wheeze, or have difficulty breathing during or after exercise?		
2. Do you have any ongoing medical conditions? If so, please identify below: <input type="checkbox"/> Asthma <input type="checkbox"/> Anemia <input type="checkbox"/> Diabetes <input type="checkbox"/> Infections Other: _____			27. Have you ever used an inhaler or taken asthma medicine?		
3. Have you ever spent the night in the hospital?			28. Is there anyone in your family who has asthma?		
4. Have you ever had surgery?			29. Were you born without or are you missing a kidney, an eye, a testicle (males), your spleen, or any other organ?		
<b>HEART HEALTH QUESTIONS ABOUT YOU</b>	<b>Yes</b>	<b>No</b>	30. Do you have groin pain or a painful bulge or hernia in the groin area?		
5. Have you ever passed out or nearly passed out DURING or AFTER exercise?			31. Have you had infectious mononucleosis (mono) within the last month?		
6. Have you ever had discomfort, pain, tightness, or pressure in your chest during exercise?			32. Do you have any rashes, pressure sores, or other skin problems?		
7. Does your heart ever race or skip beats (irregular beats) during exercise?			33. Have you had a herpes or MRSA skin infection?		
8. Has a doctor ever told you that you have any heart problems? If so, check all that apply: <input type="checkbox"/> High blood pressure <input type="checkbox"/> A heart murmur <input type="checkbox"/> High cholesterol <input type="checkbox"/> A heart infection <input type="checkbox"/> Kawasaki disease Other: _____			34. Have you ever had a head injury or concussion?		
9. Has a doctor ever ordered a test for your heart? (For example, ECG/EKG, echocardiogram)			35. Have you ever had a hit or blow to the head that caused confusion, prolonged headache, or memory problems?		
10. Do you get lightheaded or feel more short of breath than expected during exercise?			36. Do you have a history of seizure disorder?		
11. Have you ever had an unexplained seizure?			37. Do you have headaches with exercise?		
12. Do you get more tired or short of breath more quickly than your friends during exercise?			38. Have you ever had numbness, tingling, or weakness in your arms or legs after being hit or falling?		
<b>HEART HEALTH QUESTIONS ABOUT YOUR FAMILY</b>	<b>Yes</b>	<b>No</b>	39. Have you ever been unable to move your arms or legs after being hit or falling?		
13. Has any family member or relative died of heart problems or had an unexpected or unexplained sudden death before age 50 (including drowning, unexplained car accident, or sudden infant death syndrome)?			40. Have you ever become ill while exercising in the heat?		
14. Does anyone in your family have hypertrophic cardiomyopathy, Marfan syndrome, arrhythmogenic right ventricular cardiomyopathy, long QT syndrome, short QT syndrome, Brugada syndrome, or catecholaminergic polymorphic ventricular tachycardia?			41. Do you get frequent muscle cramps when exercising?		
15. Does anyone in your family have a heart problem, pacemaker, or implanted defibrillator?			42. Do you or someone in your family have sickle cell trait or disease?		
16. Has anyone in your family had unexplained fainting, unexplained seizures, or near drowning?			43. Have you had any problems with your eyes or vision?		
<b>BONE AND JOINT QUESTIONS</b>	<b>Yes</b>	<b>No</b>	44. Have you had any eye injuries?		
17. Have you ever had an injury to a bone, muscle, ligament, or tendon that caused you to miss a practice or a game?			45. Do you wear glasses or contact lenses?		
18. Have you ever had any broken or fractured bones or dislocated joints?			46. Do you wear protective eyewear, such as goggles or a face shield?		
19. Have you ever had an injury that required x-rays, MRI, CT scan, injections, therapy, a brace, a cast, or crutches?			47. Do you worry about your weight?		
20. Have you ever had a stress fracture?			48. Are you trying to or has anyone recommended that you gain or lose weight?		
21. Have you ever been told that you have or have you had an x-ray for neck instability or atlantoaxial instability? (Down syndrome or dwarfism)			49. Are you on a special diet or do you avoid certain types of foods?		
22. Do you regularly use a brace, orthotics, or other assistive device?			50. Have you ever had an eating disorder?		
23. Do you have a bone, muscle, or joint injury that bothers you?			51. Do you have any concerns that you would like to discuss with a doctor?		
24. Do any of your joints become painful, swollen, feel warm, or look red?			<b>FEMALES ONLY</b>		
25. Do you have any history of juvenile arthritis or connective tissue disease?			52. Have you ever had a menstrual period?		
			53. How old were you when you had your first menstrual period?		
			54. How many periods have you had in the last 12 months?
